## Viewing Additional Modules

***This module of the Pan-Canadian Joint Consortium for School Health (JCSH) Youth Engagement Toolkit is one among eight.***

The modules were developed as a single, comprehensive toolkit so we encourage you to explore them in sequence for the best experience.

This toolkit has been revised in 2024 to include information and tips about engaging with youth in a post-pandemic world. The COVID-19 pandemic in 2020 prompted a global shift from traditional face-to-face teaching to online and hybrid learning methods; this global change required significant adjustments in teaching practices and course design. This toolkit aims to bridge the gap between the virtual world and in-person connection to support educators

and adult allies in navigating the hybrid learning environment and supporting youth to maintain engagement and a sense of community online.

To view the other modules, return to the main JCSH Youth Engagement Toolkit page to access links to all eight. Enjoy!
